

# While It's Up... Fix It Up!

**Heavy Duty Trailer Hitch ✓**

**Air Helper Springs ✓**

**Premium Shocks?**

Since you already have that vehicle up in the air installing a trailer hitch or air helper springs, why not really help your customer (and your bottom line) by dramatically improving the ride comfort and handling...simply install a set of premium Bilstein monotube gas pressure shock absorbers.

No other shock manufacturer offers you the technological advancements, original equipment heritage, race bred performance and profitable range of vehicle coverage like Bilstein.

*This photo dramatically illustrates the size difference between the working piston inside a Bilstein monotube shock and one found in a typical "twin tube" shock.*

*The Bilstein piston has 228% larger surface area than the conventional O.E. twin tube piston, offering greater sensitivity and superior vehicle control.*
