**SECTION 1: Identification of the substance/mixture and of the company/undertaking**

- **1.1 Product identifier**
  - Trade name: Einrohrdämpfer
    Mono tube shock absorber

- **1.2 Relevant identified uses of the substance or mixture and uses advised against**
  No further relevant information available.

- **Application of the substance / the mixture**
  Shock Absorber

- **1.3 Details of the supplier of the safety data sheet**
  - Manufacturer/Supplier:
    ThyssenKrupp Bilstein Tuning GmbH
    Milsper Straße 214
    D-58240 Ennepetal
    Tel: +49 2333-791- 0
    Fax: +49 2333-791-4900
  - Informing department:
    Tel: +49 173 5687534
    Email: anna-catharina.bell@thyssenkrupp.com
  - **1.4 Emergency telephone number:**
    Tel: +44 18645 407333 GlobalChem24

**SECTION 2: Hazards identification**

- **2.1 Classification of the substance or mixture**
  - Classification according to Regulation (EC) No 1272/2008
    - GHS04 gas cylinder
    - Press. Gas C  H280 Contains gas under pressure; may explode if heated.

- **2.2 Label elements**
  - Labelling according to Regulation (EC) No 1272/2008
    The product is classified and labelled according to the CLP regulation.
  - **Hazard pictograms**
    - GHS04

- **Signal word** Warning
- **Hazard statements**
  - H280 Contains gas under pressure; may explode if heated.
- **Precautionary statements**
  - P101 If medical advice is needed, have product container or label at hand.
  - P102 Keep out of reach of children.
  - P103 Read label before use.
  - P410+P403 Protect from sunlight. Store in a well-ventilated place.

- **2.3 Other hazards**
- **Results of PBT and vPvB assessment**
  - **PBT:** Not applicable.
  - **vPvB:** Not applicable.
**SECTION 3: Composition/information on ingredients**

- **3.2 Chemical characterisation: Mixtures**
- **Description:** The shock absorber contains nitrogen and small amounts of hydraulic oil.

- **Dangerous components:**
  - CAS: 7727-37-9  
  - EINECS: 231-783-9  
  - Nitrogen
  - Press. Gas R, H281 \(\leq 10\%\)

- **Additional information**
  The mono tube absorbers contain up to 0.3 l compressed gas (nitrogen) at a pressure of 5 to 30 bar.
  The maximum product of pressure and volume is 18 bar \(*\) l.

**SECTION 4: First aid measures**

- **4.1 Description of first aid measures**
  - **General information** No special measures required.
  - **After inhalation**
    - Provide fresh air. Keep victims quiet and warm.
    - In case of unsteady breathing or breathing arrest induce artificial respiration.
    - Call a doctor immediately.
  - **After skin contact** The product is not skin irritating.
  - **After eye contact** In case of permanent aches and pains please go and see the doctor.
  - **After swallowing** Swallowing is not considered to be a possible way of exposure.

- **4.2 Most important symptoms and effects, both acute and delayed**
  No further relevant information available.

- **4.3 Indication of any immediate medical attention and special treatment needed**
  No further relevant information available.

**SECTION 5: Firefighting measures**

- **5.1 Extinguishing media**
  - **Suitable extinguishing agents**
    - The product itself does not burn.
    - Use fire fighting measures that suit the environment.

- **5.2 Special hazards arising from the substance or mixture**
  - Formation of toxic gases is possible during heating or in case of fire.
  - Can be released in case of fire:
    - Carbon monoxide (CO)
    - Nitrogen oxides (NOx)

- **5.3 Advice for firefighters**
  - **Protective equipment:**
    - In case of fire wear breathing equipment being independent of ambient air and suit provided full protection against chemicals.
  - **Additional information**
    - Remove goods in stock from incendiary zone, if possible.
    - Cool endangered containers with water spray.

**SECTION 6: Accidental release measures**

- **6.1 Personal precautions, protective equipment and emergency procedures**
  - Ensure adequate ventilation
  - Keep away from ignition sources
Trade name: Einrohrdämpfer
Mono tube shock absorber

6.2 Environmental precautions:
Inform authorities if gas escapes.
Do not allow to enter drainage system, surface or ground water.

6.3 Methods and material for containment and cleaning up:
Absorb with liquid-binding material (sand, diatomite, universal binders) and disposal in suitable containers.

6.4 Reference to other sections
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment.
See Section 13 for information on disposal.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
Keep empty containers away from heat and ignition sources.
Ensure good interior ventilation, especially at floor level. (Fumes are heavier than air).
No special measures required.

Information about protection against explosions and fires: The product is not flammable

7.2 Conditions for safe storage, including any incompatibilities

Storage
Requirements to be met by storerooms and containers:
Store containers in a well aired place at a temperature of less than 50 °C.
Store only undamaged original packaging drums.

Information about storage in one common storage facility:
Keep away from combustible and/or inflammable materials.

Further information about storage conditions:
Store in a cool place. Heat will increase pressure and may lead to the container exploding.

Storage class
2A (Compressed, liquidized and under pressure solved gases) according to TRGS 510 (German Regulation).

7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters
Components with limit values that require monitoring at the workplace:
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Additional information: The lists that were valid during the compilation were used as basis.

8.2 Exposure controls
Personal protective equipment
General protective and hygienic measures Wear suitable protective clothing at work.
Breathing equipment: Not required.
Protection of hands:
Not required.
The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.
Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
Material of gloves
The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore
to be checked prior to the application.

- **Penetration time of glove material**
  The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- **Eye protection:** Not required.

### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

- **General Information**
  - **Appearance:** Shock absorber, pneumatic / hydraulic Condensed gas
  - **Colour:** Colourless
  - **Odour:** odourless

- **Change in condition**
  - Melting point/Melting range: Not determined
  - Boiling point/Boiling range: n.a. °C

- **Flash point:** Not applicable

- **Inflammability (solid, gaseous)** Not applicable.

- **Ignition temperature:** Not determined.

- **Decomposition temperature:** Not assignable.

- **Self-inflammability:** Product is not selfigniting.

- **Danger of explosion:** Product is not explosive.

- **Vapour pressure:** Not determined.

- **Density** Not determined

- **Vapour density** Not applicable.

- **Evaporation rate** Not determined.

- **Solubility in / Miscibility with**
  - Water: Insoluble

- **Partition coefficient (n-octanol/water):** Not applicable.

- **Viscosity:**
  - dynamic: Not applicable.
  - kinematic: Not applicable.

- **Solvent separation test** Not applicable.

- **Solvent content:**
  - Organic solvents: 0.0 %
  - Water: 0.0 %

#### 9.2 Other information
The bonfire-test resulted in flying away components.

### SECTION 10: Stability and reactivity

#### 10.1 Reactivity
No further relevant information available.

#### 10.2 Chemical stability

- **Thermal decomposition / conditions to be avoided:**
  No decomposition if used and stored according to specifications.
Trade name: Einrohrdämpfer
Mono tube shock absorber

10.3 Possibility of hazardous reactions
Danger of containers bursting because of high vapour pressure
10.4 Conditions to avoid No further relevant information available.
10.5 Incompatible materials: No further relevant information available.
10.6 Hazardous decomposition products:
None in case of intended use and storage in compliance with instructions.

SECTION 11: Toxicological information

11.1 Information on toxicological effects
Acute toxicity: Based on available data, the classification criteria are not met.
Primary irritant effect:
Skin corrosion/irritation: Based on available data, the classification criteria are not met.
Serious eye damage/irritation Based on available data, the classification criteria are not met.
Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
Additional toxicological information:
When inhaling high concentrations narcotic symptoms are possible.
CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)
Germ cell mutagenicity Based on available data, the classification criteria are not met.
Carcinogenicity: Based on available data, the classification criteria are not met.
Reproductive toxicity Based on available data, the classification criteria are not met.
STOT-single exposure Based on available data, the classification criteria are not met.
STOT-repeated exposure Based on available data, the classification criteria are not met.
Aspiration hazard Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

12.1 Toxicity
Aquatic toxicity: No further relevant information available.
12.2 Persistence and degradability: No further relevant information available.
12.3 Bioaccumulative potential: No further relevant information available.
12.4 Mobility in soil: No further relevant information available.
Additional ecological information:
General notes:
Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.
The product contains materials that are harmful to the environment.
12.5 Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.
12.6 Other adverse effects: No further relevant information available.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
Recommendation Contact manufacturer for recycling information.

European waste catalogue

    - Code: E0
      - Not permitted as Excepted Quantity
SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Labelling according to Regulation (EC) No 1272/2008
The product is classified and labelled according to the CLP regulation.

Hazard pictograms

GHS04

Signal word Warning

Hazard statements
H280 Contains gas under pressure; may explode if heated.

Precautionary statements
P101 If medical advice is needed, have product container or label at hand.
P102 Keep out of reach of children.
P103 Read label before use.
P410+P403 Protect from sunlight. Store in a well-ventilated place.

Directive 2012/18/EU

Named dangerous substances - ANNEX I
None of the ingredients is listed.

National regulations

Water hazard class: Water hazard class 1 (Self-assessment): slightly hazardous for water.

Other regulations, limitations and prohibitive regulations
The regulations concerning pressure vessels and gases under pressure have to be observed.

Substances of very high concern (SVHC) according to REACH, Article 57
None of the ingredients is contained.

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases
H281 Contains refrigerated gas; may cause cryogenic burns or injury.

Department issuing data specification sheet:
This Material Safety Data Sheet has been drawn up in cooperation with:
DEKRA Assurance Services GmbH, Hanomagstr. 12, D-30449 Hanover, Germany,
phone: (+49) 511 42079 - 0, reach@dekra.com.

Trade name: Einrohdämpfer
Mono tube shock absorber

Abbreviations and acronyms:
ADR: Accord européen sur le transport des marchandises dangereuses par Route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
IMDG: International Maritime Code for Dangerous Goods
IATA: International Air Transport Association
GHS: Globally Harmonised System of Classification and Labelling of Chemicals
EINECS: European Inventory of Existing Commercial Chemical Substances
ELINCS: European List of Notified Chemical Substances
CAS: Chemical Abstracts Service (division of the American Chemical Society)
PBT: Persistent, Bioaccumulative and Toxic
SVHC: Substances of Very High Concern
vPvB: very Persistent and very Bioaccumulative
Press. Gas C: Gases under pressure – Compressed gas
Press. Gas R: Gases under pressure – Refrigerated liquefied gas
